Professional Summary

Business Analyst with experience in product analytics, marketing analytics, user behavior analysis, and dashboard reporting. Skilled in SQL, Python, Tableau, Power BI, and Excel to extract insights, optimize processes, and improve business outcomes. Delivered a 75% increase in user retention through data-driven recommendations. Strong in KPI tracking, scenario modeling, stakeholder communication, and translating business problems into actionable insights.

Technical Skills

Programming & Querying: SQL (Joins, CTEs, Window Functions), Python (Pandas, NumPy)

Data Visualization: Tableau, Power BI, Excel (Pivot Tables, Power Query, VLOOKUP)

Data Analysis: Data Cleaning, EDA, Statistical Analysis, A/B Testing, Market Research, Scenario Modeling

Platforms: Microsoft Office Suite, AWS Cloud, Figma, Jira, Confluence

Business & Analytics: KPI Tracking, Data Modeling, Business Process Analysis, Requirement Gathering, Stakeholder Communication

Methodologies: Agile, Scrum

Experience

Community Dreams Foundation

Jul 2026 – Present

Marketing Analyst (Data Specialist) – Volunteer

Remote

- Segmented audience behavior data to identify high-engagement customer groups, informing targeted campaign strategy and messaging.
- Tracked conversion funnels across marketing channels, surfacing performance gaps and prioritization opportunities for the team.
- Synthesized market and competitor trends into concise briefs that guided channel and budget decisions.

Vumba Online

Oct 2025 – Present

Business Analyst Intern

Remote

- Conducted behavioral analysis on 1,000+ learners, segmenting cohorts by engagement pattern to uncover the root causes behind a 75% retention lift.
- Mapped end-to-end user process flows to expose friction points and ambiguity in product requirements, then redesigned key flows in Figma for clearer implementation.
- Ran drop-off analysis across 10K+ session records to pinpoint the exact steps where learners disengaged within core modules.
- Compared MVP performance pre- and post-release across multiple launches, translating findings into structured decision reports for the product team.

Elevate Labs

Jun 2025 – Sep 2025

Data Analyst Intern

Remote

- Wrangled and reconciled 5K+ records across disparate systems, resolving mismatches to restore reporting integrity.
- Engineered 3+ self-updating reporting dashboards, cutting manual turnaround time by 30–40%.
- Audited data pipelines across multiple sources to catch and correct recurring quality issues before they reached stakeholders.

Projects

AI in Marketing: Channel Allocation Framework

2026

Tableau, Python, Market Intelligence, Scenario Modeling

- Integrated 4 industry datasets (IAB, Gartner, SEMrush, CMO Survey) covering \$258.6B+ digital advertising spend, AI adoption trends, and search disruption metrics.
- Designed an interactive Tableau dashboard analyzing 8 marketing channels across 1,440 scenario combinations, enabling strategic budget allocation recommendations.
- Developed a proprietary Net Allocation Pressure Score (NAPS) model combining market momentum, AI efficiency gains, and search-disruption risk into actionable investment categories.
- Built parameter-driven scenario simulations to evaluate the impact of changing AI adoption and market conditions on channel performance and marketing ROI.

Teach For America Admissions Prediction

2025

R, Machine Learning

- Built predictive models on 74K+ applicant records using demographic, academic, engagement, and sentiment features; tested 7 models including kNN, Naive Bayes, C5.0, CART, SVM, ANN, and Apriori-based rule mining.
- Achieved 67% balanced accuracy using ANN and applied C5.0 for interpretability; identified key behavioral drivers such as Responded, Attended Event, and Met.

Education

Illinois Institute of Technology

2026

MBA, Business Analytics – Stuart School of Business

Chicago, USA

PSGR Krishnammal College for Women

2024

B.Sc. Psychology

Coimbatore, India

Certifications

AWS Certified Cloud Practitioner — SQL Bootcamp — Python for Beginners — Google Data Analytics
